

CANDIDATE ID: CV03 | LEVEL: JUNIOR | PROFILE: Cloud Security Engineer

PROFESSIONAL SUMMARY

Junior Cloud Security Engineer with 1.5 years of experience focused on securing cloud environments, primarily AWS. Strong academic background in cloud computing and DevOps practices with a growing emphasis on security integration (DevSecOps). Experienced in implementing basic cloud security controls, IAM policies, and infrastructure as code. Looking to develop deeper expertise in SASE, zero-trust architectures, and multi-cloud security.

EDUCATION

Bachelor of Engineering in Computer Science, specialization in Cloud Computing

Graduation Year: 2022

Online Bootcamp: Cloud Security Engineering

Duration: 6 months, completed 2022

WORK EXPERIENCE

Junior Cloud Security Engineer

SaaS Technology Company | Oct 2022 – Present

- Implemented and managed AWS IAM roles, policies, and permission boundaries following least-privilege principles.
- Configured AWS Security Hub, GuardDuty, and CloudTrail for continuous security monitoring and compliance checks.
- Assisted in the deployment of VPC security groups, NACLs, and VPC Flow Logs.
- Supported CI/CD pipeline security reviews using Snyk and Checkov for IaC scanning.
- Participated in remediation of cloud misconfigurations identified by Prisma Cloud.
- Helped implement S3 bucket policies and encryption standards for data at rest.
- Assisted with SOC2 compliance evidence collection for cloud environments.

Technical Support Engineer (Internship)

Cloud Hosting Provider | Jan 2022 – Sep 2022

- Assisted customers with AWS and Azure network configuration issues.
- Documented troubleshooting guides for common cloud connectivity problems.
- Supported migration projects from on-premises to cloud infrastructure.

TECHNICAL SKILLS

Cloud Platforms: AWS (IAM, VPC, Security Hub, GuardDuty, CloudTrail, S3, EC2)

Azure (basic: AAD, NSGs, Defender for Cloud)

IaC Security: Terraform (basic), Checkov, tfsec

Container Security: Docker (basic), Kubernetes (basic), Trivy

CSPM: Prisma Cloud (basic), AWS Security Hub

SIEM/Monitoring: AWS CloudWatch, basic Splunk

Identity/Access: AWS IAM, Azure Active Directory, basic Okta concepts

DevSecOps Tools: Snyk, OWASP ZAP (basic), GitHub Actions

Scripting: Python (intermediate), Bash

Networking: TCP/IP, VPC design, security groups, NACLs

SOFT SKILLS

- Quick learner with ability to self-study emerging cloud security topics
- Collaborative team player in agile/DevOps environments
- Structured problem-solving and root cause analysis
- Clear documentation and technical writing
- Comfortable working with both security and development teams
- Proactive identification of security risks

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate — 2022
 - AWS Certified Security – Specialty — 2023
 - CompTIA Security+ — 2022
 - Certified Cloud Security Professional (CCSP) — In Progress (2024)
-

LANGUAGES

- English: Professional working proficiency (B2)
 - French: Basic (A1)
-

RELEVANT PROJECTS

Project 1: AWS Security Baseline Automation (Work Project, 2023)

Developed Terraform modules to automatically provision security baselines for new AWS accounts: CloudTrail, GuardDuty, Config Rules, and Security Hub standards. Reduced manual setup time from 4 hours to 15 minutes.

Project 2: S3 Data Classification and Encryption Project (Work, 2023)

Audited 150+ S3 buckets for public access, encryption status, and versioning. Implemented automated remediation via AWS Config custom rules and Lambda functions.

Project 3: SASE Architecture Research (Personal, 2024)

Researched and documented a comparative analysis of leading SASE platforms (Zscaler, Prisma Access, Fortinet) as preparation for adopting SASE architecture in a multi-branch corporate environment.

NOTE: This is a synthetic CV generated for academic research purposes. Personal identifiers (name, photo, gender, age, nationality, marital status) have been intentionally omitted to protect candidate privacy and ensure bias-free evaluation.
