

CANDIDATE ID: CV12 | LEVEL: INTERMEDIATE (SEMI-SENIOR) | PROFILE: Software Developer (Full Stack)

PROFESSIONAL SUMMARY

Full Stack Software Developer with 5 years of experience building web applications and SaaS platforms. Experienced in Python, React, and cloud deployment on AWS. Security knowledge is application-layer focused: OAuth 2.0, SAML, API security, and OWASP best practices. No dedicated network security or cybersecurity background, though has worked closely with security teams on feature development related to IAM integrations and data protection. Strong technical communicator and agile team contributor.

EDUCATION

Bachelor of Science in Computer Science
Graduation Year: 2018

WORK EXPERIENCE

Mid-Level Full Stack Developer

HR Technology SaaS Company | Feb 2021 – Present (3.5 years)

- Developed and maintained core application features in Python (Django/FastAPI) backend and React frontend for a 50,000-user SaaS platform.
- Implemented OAuth 2.0 and SAML 2.0 SSO integrations with enterprise identity providers (Okta, Azure AD, Google Workspace).
- Designed API security controls: rate limiting, JWT validation, API key management, and mutual TLS for B2B integrations.
- Led the implementation of SCIM 2.0 for automated user provisioning from enterprise identity providers.
- Collaborated with security team on OWASP Top 10 remediation in annual penetration test findings.
- Built audit logging infrastructure for SOC 2 compliance requirements.
- Mentored 2 junior developers on security-aware coding practices.

Backend Developer

Digital Startup | Aug 2018 – Jan 2021

- Built RESTful APIs and microservices using Python (Flask) and Go.
- Designed database schemas in PostgreSQL and managed Redis caching.
- Implemented authentication flows using JWT and OAuth 2.0.
- Participated in agile sprints and code review processes.

TECHNICAL SKILLS

Languages: Python (Django, FastAPI, Flask), JavaScript/TypeScript (React), Go (intermediate), SQL
Authentication/IAM: OAuth 2.0, SAML 2.0, OIDC, SCIM 2.0, JWT, MFA flows
Okta, Azure AD / Entra ID, Cognito integration experience
API Security: Rate limiting, API key management, mTLS, input validation, OWASP API Security Top 10 awareness
Databases: PostgreSQL, MySQL, Redis, Elasticsearch
Cloud (AWS): EC2, ECS, Lambda, RDS, S3, API Gateway, CloudFront, Cognito, Secrets Manager, basic VPC
DevOps/CI/CD: Docker, Kubernetes (basic), GitHub Actions, Terraform (basic)
Security Tools: Snyk (SCA), Semgrep (SAST), Burp Suite (basic)
Frameworks: OWASP Top 10, SOC 2 (application compliance)

SOFT SKILLS

- Strong problem-solving and debugging skills
- Excellent collaboration with product, design, and security teams

- Ability to write clean, maintainable, well-documented code
- Good at explaining technical concepts to product managers and stakeholders
- Ownership mindset and accountability for feature quality
- Passionate about building secure-by-design software

CERTIFICATIONS

- AWS Certified Developer – Associate — 2020
- AWS Certified Solutions Architect – Associate — 2021
- OWASP Secure Coding Practices Certificate — 2022
- Okta Certified Professional — 2023

LANGUAGES

- English: Full professional proficiency (C1)
- Spanish: Native
- French: Intermediate (B1)

RELEVANT PROJECTS

Project 1: Enterprise SSO Platform (Work, 2022)
Led development of a multi-tenant SAML/OIDC SSO framework supporting 50+ enterprise customer identity provider configurations. Implemented JIT (Just-In-Time) user provisioning and SCIM 2.0 sync, eliminating manual user account management for enterprise clients.

Project 2: Audit Log and Compliance Engine (Work, 2023)
Designed and implemented an immutable audit logging system capturing 200+ event types across the SaaS platform. Built reporting API for SOC 2 Type II compliance evidence export, reducing audit preparation time by 70%.

Project 3: OWASP Remediation Sprint (Work, 2022)
Led a 2-sprint security remediation effort addressing 12 findings from an annual penetration test (OWASP Top 10 focus). Developed secure coding guidelines adopted as team standard for ongoing development.

NOTE: This is a synthetic CV generated for academic research purposes. Personal identifiers (name, photo, gender, age, nationality, marital status) have been intentionally omitted to protect candidate privacy and ensure bias-free evaluation.
