

CANDIDATE ID: CV17 | LEVEL: SENIOR | PROFILE: Senior Security Engineer (Enterprise Security)

PROFESSIONAL SUMMARY

Senior Security Engineer with 10 years of experience across network security, cloud security, and security operations. Specializes in designing and operationalizing enterprise security platforms spanning NGFW, SASE, EDR, PAM, and SIEM. Extensive experience working with MSSPs, technology vendors, and enterprise clients in a consulting, pre-sales, and operational capacity. Recognized expert in SecOps platform selection, security technology integration, and incident response. Effective technical leader with experience managing engineering teams of 10+ and driving cross-functional security programs. Skilled presenter and communicator equally comfortable with SOC analysts, CISOs, and board-level audiences.

EDUCATION

Master of Science in Cybersecurity Engineering

Graduation Year: 2015

Bachelor of Science in Computer Science

Graduation Year: 2013

WORK EXPERIENCE

Senior Security Engineer / Principal Consultant

Cybersecurity Consulting Practice (Global SI) | Jun 2019 – Present (5 years)

- Led enterprise security platform design and deployment engagements for financial, energy, and government sector clients.
- Designed and deployed integrated SecOps platforms: Splunk ES + SOAR, CrowdStrike XDR, CyberArk PAM, Microsoft Sentinel, and Proofpoint.
- Evaluated and recommended SASE/SSE platforms for 5 enterprise clients: designed architecture integrating network security (SD-WAN, NGFW) with cloud-delivered SSE (SWG, CASB, ZTNA).
- Led pre-sales technical activities: RFP responses, PoC design, client workshops, and solution architecture presentations to C-suite.
- Managed delivery teams of 4–6 security engineers per engagement.
- Developed security service portfolio offerings for MSSP and consulting clients.
- Authored technical solution frameworks adopted as firm-wide delivery standards.
- Provided technical guidance to 15+ junior consultants.

Security Engineering Manager

Large Telecommunications Operator – MSSP Division | Jan 2015 – May 2019 (4.5 years)

- Managed a team of 12 security engineers providing managed detection and response (MDR), firewall management, and identity services.
- Oversaw deployment and operations of SIEM (Splunk, QRadar) for 30+ clients.
- Spearheaded the introduction of EDR-as-a-Service using CrowdStrike Falcon.
- Implemented PAM service offering (CyberArk) for financial sector clients.
- Drove incident response capability, managing 50+ major incidents per year.
- Contributed to portfolio and pricing strategy for managed security services.

TECHNICAL SKILLS

Network Security: Fortinet Security Fabric (FortiGate, FortiSIEM, FortiAnalyzer),

Palo Alto NGFW, Cisco FTD, Check Point, Juniper SRX

SASE/SSE: Zscaler (ZIA/ZPA), Palo Alto Prisma Access, Fortinet FortiSASE, Netskope, Cisco Umbrella

SD-WAN: Fortinet SD-WAN, Cisco SD-WAN (Viptela), VMware VeloCloud

SecOps Platforms: Splunk ES (advanced), Microsoft Sentinel, IBM QRadar,

CrowdStrike XDR, SentinelOne, Cortex XDR

PAM: CyberArk (advanced), BeyondTrust, Delinea
Email Security: Proofpoint, Mimecast, Defender for Office 365
DLP: Microsoft Purview, Symantec DLP, Zscaler DLP
IAM: Okta, Azure AD / Entra ID, Ping Identity,
SAML/OAuth 2.0/OIDC, MFA, SCIM, PAM integration
Cloud Security: AWS Security Hub/GuardDuty/Config, Azure Defender for Cloud,
GCP Security Command Center
Automation: Python (SOAR automation, API integrations), Ansible, Terraform
Frameworks: NIST CSF, CIS Controls v8, ISO 27001, MITRE ATT&CK,
Zero Trust (NIST 800-207), PCI DSS, SOC 2

SOFT SKILLS

- Strategic leadership with ability to influence at VP and C-level
 - Building high-performance security engineering teams
 - Executive presentation and technical storytelling
 - Competitive intelligence and technology evaluation expertise
 - Client relationship management and trusted advisor positioning
 - Mentoring and developing security engineering talent
 - Resilient under complex, high-stakes delivery environments
-

CERTIFICATIONS

- CISSP — 2016, renewed 2022
 - CISM (Certified Information Security Manager) — 2018
 - Fortinet NSE 7 – Enterprise Firewall — 2020
 - Palo Alto PCNSE — 2019
 - GIAC Certified Enterprise Defender (GCED) — 2017
 - CrowdStrike Certified Falcon Responder — 2021
 - AWS Security Specialty — 2020
 - Microsoft SC-100 (Cybersecurity Architect Expert) — 2022
-

LANGUAGES

- English: Native
 - Spanish: Full professional proficiency (C1)
 - Arabic: Basic (A1)

RELEVANT PROJECTS

Project 1: Integrated SecOps Platform Design – Energy Sector (2022)
Designed and led deployment of a unified SecOps platform for a national energy company: Splunk ES + SOAR, CrowdStrike XDR, CyberArk PAM, and Proofpoint. Achieved integration across all four platforms with automated incident response workflows reducing MTTR from 4 hours to 22 minutes.

Project 2: SASE Architecture for Hybrid Enterprise (2023)
Designed full-stack SASE architecture for a 30,000-user enterprise spanning Fortinet FortiSASE, FortiGate NGFW, and FortiClient ZTNA. Integrated with Okta for identity-centric access control. Delivered 18-month migration plan from legacy MPLS/VPN to cloud-delivered security.

Project 3: MSSP Security Engineering Practice Build (2015–2018)
Built and scaled a 12-engineer managed security services practice from scratch. Developed service catalog, delivery methodology, SLAs, and pricing. Grew revenue from \$0 to \$8M ARR in 3 years, serving 30+ enterprise clients.

Project 4: MITRE ATT&CK Detection Coverage Program (2021)
Led enterprise-wide initiative mapping detection capabilities to MITRE ATT&CK framework across 5 clients. Identified 40% average coverage gaps, prioritized detection development, and increased mapped coverage to 72% within 12 months.

NOTE: This is a synthetic CV generated for academic research purposes. Personal identifiers (name, photo, gender, age, nationality, marital status) have been intentionally omitted to protect candidate privacy and ensure bias-free evaluation.
