

CANDIDATE ID: CV18 | LEVEL: SENIOR | PROFILE: Senior Systems Engineer (Pre-Sales, SecOps & SASE)

PROFESSIONAL SUMMARY

Senior Systems Engineer with 11 years of experience at the intersection of cybersecurity technology and enterprise business development. Specialized in SecOps and SASE solutions with a proven track record in pre-sales technical leadership, channel partner development, and go-to-market strategy execution. Expert at identifying customer pain points, designing solution architectures, and delivering value-based proposals and technical presentations that consistently win competitive deals. Deep relationships across MSSPs, global system integrators (GSIs), and technology partners. Strong commercial acumen combined with deep technical expertise in security operations platforms (SIEM, EDR, DLP, PAM), SASE, and cloud security.

EDUCATION

Master of Business Administration (Technology Management track)

Graduation Year: 2015

Bachelor of Science in Computer Engineering

Graduation Year: 2012

WORK EXPERIENCE

Senior Systems Engineer – SecOps & SASE

Major Cybersecurity Vendor | Aug 2018 – Present (6 years)

- Led pre-sales technical activities for strategic enterprise and MSSP accounts across SecOps and SASE product portfolio.
- Designed go-to-market strategies for SecOps vertical (DLP, EDR, Email Protection, PAM) and SASE portfolio targeting enterprise, healthcare, and financial services.
- Identified and engaged prospective customers, building a \$25M+ qualified pipeline in assigned territory.
- Developed and nurtured relationships with 20+ channel partners including MSSPs, GSIs, and regional resellers; delivered partner enablement programs.
- Collaborated with engineering to translate field feedback into 10+ product improvements adopted in product releases.
- Delivered technical presentations and workshops to audiences of 5–500+, including RSA, Gartner Summit, and regional security events.
- Drove competitive displacement campaigns against CrowdStrike, Splunk, and Palo Alto with a 65% win rate in tracked opportunities.
- Met or exceeded quarterly revenue targets for 5 consecutive years.

Systems Engineer / Pre-Sales Consultant

Regional Cybersecurity VAR | Mar 2014 – Jul 2018 (4.5 years)

- Provided pre-sales technical support for portfolio spanning network security (Fortinet, Palo Alto), SecOps (Splunk, QRadar), and endpoint (CrowdStrike).
- Conducted customer needs assessments and developed tailored solution designs.
- Managed partner relationships with 3 major security vendors.
- Delivered product demonstrations, PoCs, and RFP technical responses.

Security Operations Analyst

Enterprise Financial Institution | Jul 2012 – Feb 2014 (1.7 years)

- Monitored and investigated security events in a 24/7 SOC environment.
 - Managed firewall change requests and performed basic network security administration on Cisco ASA and Checkpoint firewalls.
 - Participated in incident response and forensic analysis activities.
-

TECHNICAL SKILLS

SecOps Platforms: Splunk (ES + SOAR), CrowdStrike Falcon (XDR/EDR/Threat Intel)
Microsoft Sentinel + Defender XDR, SentinelOne, Cortex XDR
DLP: Microsoft Purview DLP, Zscaler DLP, Symantec/Broadcom DLP
Email Security: Proofpoint (TAP, CASB, DLP), Mimecast, Defender for Office 365
PAM: CyberArk (PAM, EPM), BeyondTrust
SASE/SSE: Zscaler (ZIA/ZPA/ZDX), Palo Alto Prisma Access,
Fortinet FortiSASE, Cisco Umbrella, Netskope
Network Security: Fortinet FortiGate, Palo Alto NGFW (operational experience)
IAM/Identity: Okta, Azure AD, SAML/OIDC/OAuth 2.0, MFA
Cloud: AWS (Security Hub, GuardDuty, IAM), Azure (Defender, AAD)
Channel/GTM: MSSP partner management, channel enablement, GSI alignment,
territory planning, pipeline development
Business Skills: Value selling, executive presentations, ROI analysis,
proposal writing, contract negotiation support

SOFT SKILLS

- Exceptional verbal and written communication for technical and executive audiences
 - High commercial drive with consultative, value-based selling approach
 - Deep ability to analyze customer pain points and design targeted solutions
 - Skilled in managing complex multi-stakeholder enterprise sales cycles
 - Strong channel partnership development and enablement capabilities
 - Strategic thinker with ability to align product capabilities to market trends
 - Ability to represent the organization in large industry events and forums
-

CERTIFICATIONS

- CISSP — 2016
 - Certified Information Security Manager (CISM) — 2019
 - CrowdStrike Certified Falcon Responder (CCFR) — 2020
 - Zscaler Zero Trust Certified Architect (ZTCA) — 2022
 - Splunk Core Certified Consultant — 2019
 - Microsoft SC-200 — 2021
 - AWS Security Specialty — 2021
-

LANGUAGES

- English: Native
 - Spanish: Full professional proficiency (C1)
 - Chinese (Mandarin): Basic (A2)

RELEVANT PROJECTS

Project 1: SecOps Go-to-Market Program Launch (2020)

Designed and executed a regional go-to-market program for the vendor's SecOps portfolio targeting the MSSP channel. Recruited and enabled 8 new MSSP partners, developed joint solution bundles, and generated \$12M in pipeline within 9 months. Three partners achieved Platinum partner status.

Project 2: SASE Market Expansion Campaign (2022)

Identified 5 key enterprise verticals for SASE expansion (financial, healthcare, retail, government, manufacturing). Developed tailored messaging, case studies, and technical assets per vertical. Campaign contributed to 40% year-over-year pipeline growth in assigned territory.

Project 3: Competitive Displacement Campaign – Splunk vs Sentinel (2023)

Led a technical campaign to displace Splunk with Microsoft Sentinel for a financial services enterprise client. Developed migration architecture, cost comparison analysis, and a 4-week POC. Won the deal valued at \$2.8M ARR, the largest Sentinel displacement win in the vendor's Americas region.

Project 4: MSSP Partner Enablement Program (2021)

Designed a 3-month technical enablement curriculum for 5 MSSP partners covering SecOps portfolio (EDR, DLP, PAM, Email Security) and SASE. Post-enablement, partner pipeline grew by 180% within 6 months.
